

# Introduction

The SCAN range of safety products is designed to protect wearers in the most frequently occurring circumstances under which personal protection is either required or recommended in building, construction, maintenance and associated industries. All SCAN Safety Products meet 'EN or CE Standards' where applicable.

User comfort and long lasting service are the main considerations for the SCAN range of workwear products which are designed to cater for the needs of both the professional user and enthusiastic DIYers.

The products are manufactured to a standard that reflects the tough environment in which they are likely to be worn.

**Product Information:** We have taken every care to ensure that the list prices and descriptions are correct at the time of going to print. SCAN cannot be held liable in respect of any errors or omissions herein contained or for any loss or damage, malfunction or consequential loss arising from reliance upon this publication.

**General Disclaimer:** It is the responsibility of Employers and Individuals to carry out proper risk assessment by qualified Health & Safety personnel of any situation, activity or process where there is a potential risk or hazard which would be detrimental to an individual if exposed to it. SCAN shall not be held liable for any loss, damage or injury sustained from the misuse of any of its products if no proper risk assessment has been carried out.
