

# Spill and Leak Control

A range of products for coping with spills involving water, oil, fuel and chemicals.

The absorbent pads come colour coded as they are available in three types to absorb different liquids

## Black

Absorbs coolant, oil, water, solvent and non-aggressive fluids.

Ideal in the plumbing trade for boiler leaks etc.

## White

Absorbs oil, fuel and solvents.

Ideal for vehicles and workshops.

## Yellow

Absorbs acid, solvents and strong chemicals.

Ideal for laboratories, workshops and small units.
